

**Biotype GmbH** is a biotech company with more than 20 years of experience in developing, producing and distributing molecular diagnostic applications. Operating from our headquarters in Dresden, we are currently expanding our business into new markets. For the development and expansion of our operations, we are looking for dedicated team members, with a strong hands-on mentality and a passion to bring the company to the next level. Join us to help shape Biotype's future.

To strengthen our team, we are looking for a:

### **Development Manager (m/f/d)**

#### **Your Position**

As a Development Manager you work in a highly qualified, cross-functional product development team to lead experimental programs on our products, thereby servicing internal and external clients.

#### **Your Tasks**

- Plan, lead and coordinate the execution of product development activities for human in-vitro diagnostic products
- Develop verification and validation protocols under Design Control process in accordance with appropriate quality requirements and compliance standards
- Perform data analysis, write reports and publish scientific results
- Scientific contribution to complex problem solving and technical development
- Training and supervision of the technical staff during the development phase
- Give presentations at customer visits and external scientific meetings

#### **Your Profile**

- Masters' degree (M.Sc.) minimum, preferably in a scientific/technical discipline (e.g., biology, biochemistry, biotechnology)
- Experiences in research and development in diagnostic industry or PhD experience in the field of molecular diagnostics or DNA analytics
- In depth understanding of the experimental design and statistical data analysis
- Ability to keep up-to-date technically and applying new knowledge to your job
- Experience with the quality and regulatory requirements for development of CE-IVD products and work experience under a quality management system (ISO 9001, 13485) is strongly preferred
- Team player with strong organizational and communication skills
- Fluent in German and preferably English

#### **We offer**

- Work in an innovative company with a cooperative working atmosphere
- A diverse environment with room for one's own initiative, new ideas and independent work
- Opportunities for further qualification and additional social benefits such as health provision, coffee and tea, fresh fruits and lunch discounts

Are you interested in that position?
