

In Partnership with:

MEDICAL DEVICES Meetings

In Association with:

Final List of Participants - 24/08/2016

ACCIÓ – CATALONIA TRADE & INVESTMENT

ACCIÓ is a global organisation devoted to promote Catalan business.

Germany

ADVANTAGE AUSTRIA STUTTGART

Austria's official trade promotion organisation. With its more than 110 offices in over 70 countries, it provides a broad range of intelligence and business development services for both Austrian companies and their international business partners.

Austria

AMETEK ENGINEERED MEDICAL COMPONENTS

Ametek partners with the world's top medical device manufacturers to design and manufacture state-of-the-art technology solutions for virtually every clinical application. Leading global manufacturer of electronic instruments and devices.

Germany

ATG GROUP

International group located in France and Tunisia, subcontractor in fine sheet metal production.

France

BADEN-WÜRTTEMBERG INTERNATIONAL

BW-International lends support to domestic and foreign companies, research institutions and universities by serving as the central first point-of-contact in all questions relating to internationalisation.

Germany

BBF STERILISATIONSSERVICE GMBH

gamma-sterilization, microbiological testing, sterilization Validation, cleaning Validation, biocompatibility testing, Hygiene Monitoring, packaging (Blister, pouches), mounting, cleaning, packaging testing, stability testing, Transport Validation,

Germany

BIERSACK TECHNOLOGIE GMBH & CO KG

Biersack is a renowned industrial supplier for a wide variety of high tech products. We take pride in our history of 60 years, our state-of-the-art machine tooling and advanced automation technology.

Germany

BIOTRONIK SE & CO. KG

world leading manufacturers of cardio- and endovascular medical devices, implant devices, electrophysiology products, vascular intervention

Germany

AD INDUSTRIE

The ADI Composites Medical know-how in materials and composite structures based in High Resistance carbon enables us to play a major role in the development and manufacture of products designed for the medical imaging industry.

France

ALSACE BIOVALLEY

Alsace BioValley is a globally-oriented competitiveness cluster in the field of life sciences and health located in Alsace

France

ANDRATEC GMBH

AndraTec GmbH - Advanced Intervention Technologies - Cardiovascular catheter based technology (cardiology vascular surgery, pediatric cardiology radiology neuroradiology)

Germany

AWS ELECTRONICS GROUP LTD

AWS Electronics Group is one of Europe's leading Specialist Electronics Manufacturing Solutions (EMS) providers, offering services for the entire electronic product lifecycle, from design to manufacturing and on through whole life service and repair.

United Kingdom

BAJA CALIFORNIA STATE GOVERNMENT

Promotion of the Medical industry in Baja California.

Mexico

BE CONSULTING S. DE RL DE CV

Mexican consulting services

Mexico

BIOPRO BADEN-WÜRTTEMBERG GMBH

BIOPRO supports the medical technology, biotechnology and pharmaceutical sectors in the healthcare industry as well as the development of a bioeconomy in Baden-Württemberg

Germany

BITTIUM WIRELESS LTD

Bittium specializes in the development of reliable and secure communication solutions, leveraging its 30 year legacy of expertise in advanced radio communication technologies. Bittium provides innovative medical products and customizes solutions.

Finland

In Partnership with:

MEDICAL DEVICES
Meetings

In Association with:

Final List of Participants - 24/08/2016

BOM

The mission of the Brabant Development Agency (BOM) is to create, improve, maintain and develop the industrial and economic structure in Brabant by offering a range of professional services.

The Netherlands

BUSINESSOULU / CITY OF OULU

International delegation of companies from Finland

Finland

CCI INTERNATIONALE FRANCHE-COMTÉ

International delegation of companies from France - region franche comté

France

CEMIT - CENTRUM FÜR MEDIZINTECHNISCHE INNOVATION

The Center for Technical Innovation Medicine Tübingen works with partners coming from major industry companies, small and medium sized enterprises (SMEs) and start-ups offering services at the various stages of the medical technology innovation.

Germany

CREATEMPS

Leading European brand on medical devices - implantable or not - on all materials, silicones, polymers, metals and textiles.

France

CYIENT GMBH

Engineering Services: Software, Hardware, Electrical, Mechanical

Germany

DEMCON ADVANCED MECHATRONICS BV

DEMCON Advanced Mechatronics researches, develops and produces high-tech mechatronic systems and products for its focus areas of high-tech systems and medical devices.

The Netherlands

DEUTSCHE INSTITUT FÜR TEXTIL- UND FASERFORSCHUNG DENKENDORF (DITF)

DITF-MR develops and elaborates concepts, methods and instruments for supporting strategic and operative management for companies and networks. We develop process and method innovations in the areas of medical textiles and around industry 4.0.

Germany

BSI GROUP DEUTSCHLAND GMBH

Assessment and Certification of Medical Devices and Quality Management Systems as a Notified/Certification Body according to: MDD; IVDD; AIMDD; ISO 13485, ISO 9001

Germany

C. HAFNER GMBH & CO. KG

Our strong focus on technology and solutions is based on high-tech recycling of precious metal, digital dental technologies, state-of-the-art machining centres, a wide range of semi-finished products and in-depth knowledge of numerous applications.

Germany

CEFAMOL

Portuguese Organisation promoting the moulds industry, technological research, professional work training and the exchange of technical and scientific information with other institutions working in the same area both in Portugal and abroad.

Portugal

CLUSTER MEDIZINTECHNOLOGIE MANNHEIM

Delegation of companies from the Mannheim Region - Germany. They facilitate efficient cooperation and networking of MedTech companies, hospitals, research organizations and universities.

Germany

CSA GROUP EUROPE GMBH

CSA Group delivers confidence and peace of mind to manufacturers, retailers, code authorities and consumers around the world.

Germany

DCW GMBH (DEUTSCH-CHINESISCHE WIRTSCHAFTSVEREINIGUNG E.V.)

The German-Chinese Business Association organizes since 1987 the exchange of experience between companies, institutions and individuals involved in Chinese business. A strong network and practice-related events are the core competencies of the DCW

Germany

DESIGN PARTNERS

Strategic design consultancy with a focus on connected health, medical devices and consumer medical. We provide design consultancy through every stage of the New Product Development process from Ideation to Manufacturing.

Ireland

DITABIS

Expert in OEM development, production and certification of medical devices and lab equipment

Germany

In Partnership with:

MEDICAL DEVICES
Meetings

In Association with:

Final List of Participants - 24/08/2016

DM ELEKTRON SPA

Design, prototyping, pre-series, mass production, testing of electronic boards and complete Systems

Italy

DR. KNOELL CONSULT GMBH

We are a consulting company and offer services around regulatory affairs as well as quality Management systems in the medical device field worldwide.

Germany

ECR AG

Supply of prototypes and short-run series as well as validation and certification. ISO9001 and ISO13485 certified. Products designed for use in sonography, lab diagnostics, electrosurgery, cardiography, x-ray diagnostics, medical laser surgery etc.

Switzerland

ELMATICA AS

Develops and implements new systems for sourcing, capabilities, knowledge sharing, quality control and business intelligence

Norway

ENTERPRISE IRELAND

International delegation of companies from Ireland.

Germany

EXTRUDEX KUNSTSTOFFMASCHINEN GMBH

Highly innovative manufacturer of single-screw extruders and turnkey extrusion lines for thermoplastics processing.

Germany

FESTO AG & CO. KG

Festo supports you all the way from designing to developing and producing suitable subsystems. We help you manage risks when developing products for medical applications, based on the ISO 13485 standard and FDA stipulations.

Germany

FRAUNHOFER IPA-PAMB

Fraunhofer PAMB has strong expertise in the R&D of optical imaging systems for Biomedical Applications. The group has developed real-time multispectral imaging technologies for applications in intraoperative imaging and fluorescence guided surgeries.

Germany

DOLMEN PRODUCT DESIGN

We are a creative design and innovation consultancy We have worked with clients across the globe, using design thinking to better understand their customers and deliver world class, internationally award winning products and services

Ireland

EBERHARD-KARLS-UNIVERSITY, DEPT. OF UROLOGY

Advance research and development in medical technology. Cooperation and common projects have been i been jointly funded by regional industry relating medical technology and by large public funds.

Germany

EE-SYSTEMS GMBH

The large spectrum of our product range is exemplary for us as a cable manufacturer. Our production capabilities range from extremely specific high-end solutions to virtually special mass-produced-articles.

Germany

EMITECH GROUP

Testing laboratory.

France

EUROPEAN REPRESENTATIVE OFFICE OF ZHUHAI CITY

Germany

FENIN

Spanish federation of healthcare technology companies.

Spain

FIRST SENSOR AG

suppliers in the field of sensor systems. develops and manufactures standardized and tailor-made sensor solutions for detection of light, radiation, pressure, flow, level and acceleration for applications in Industrial, Medical and Mobility markets

Germany

FRAUNHOFER PROJECT GROUP FOR AUTOMATION IN MEDICINE AND BIOTECHNOLOGY - PAMB

We do R&D for applications such as minimally-invasive instruments, medical robotics and assistance systems for intervention and therapy.

Germany

In Partnership with:

MEDICAL DEVICES
Meetings

In Association with:

Final List of Participants - 24/08/2016

FRAUNHOFER-INSTITUT FÜR GRENZFLÄCHEN- UND BIOVERFAHRENSTECHNIK IGB

Development and optimization of processes and products in the fields of medicine, pharmacy, chemistry, the environment and energy. Competence areas in Validation of drugs, Cell and Tissue Engineering, Medical engineering.

Germany

FRIWO GERÄTEBAU GMBH

Global manufacturer of technologically leading chargers, battery packs, power supplies and LED drivers. Engineering and manufacturing services (E²MS). Spectrum ranges from engineering, equipment assembly through to production of complete modules.

Germany

GINOLIS LTD

Ginolis is a global systems supplier that specializes in developing and providing high precision liquid handling and automation solutions for the diagnostic and MedTech industries.

Finland

HALTIAN LTD

We have high capabilities in electronic HW-, mechanics- and SW development including all meaningful connectivity technologies, RF&antenna, HW, mechanics, SW, sensors, simulations, verification and manufacturing support.

Finland

HOCHFORM - CLUSTER DER PRÄZISIONSTECHNIK PFORZHEIM

HOCHFORM is an initiative of the city-owned operation management and city marketing Pforzheim (WSP) in support of the companies focusing in the metalworking precision technology from the region Pforzheim / Nordschwarzwald.

Germany

HUMAN TECHNOLOGY STYRIA GMBH

A membership organization for the life science and related industries in Styria

Austria

IDMM

Machining (screw cutting, turning and milling)

France

IHK SCHWARZWALD-BAAR-HEUBERG

We are stakeholders and service providers for our member businesses from the region Schwarzwald-Baar - Heuberg. A well-functioning network to strengthen the economic of the region.

Germany

FRESENIUS MEDICAL CARE DEUTSCHLAND GMBH

Fresenius Medical Care is a German company specializing in the production of medical supplies, primarily to facilitate or aid renal dialysis.

Germany

GAMBRO DIALYSATOREN GMBH

Developing, manufacturing and supplying products and therapies for dialysis of kidney and liver, treatment of myeloma kidney and other extracorporeal therapies for patients with acute and chronic diseases. A company of Baxter International.

Germany

HAHN-SCHICKARD

We develop products and services for you using microsystems engineering: from the initial idea or concept through to product – across all industry sectors.

Germany

HENKE-SASS WOLF GMBH

Henke-Sass, Wolf is a leading medical technology company and a highly sought-after OEM of endoscopes, injection systems and application systems.

Germany

HOCHSCHULE FURTWANGEN

Education, software developing, medical devices

Germany

HYPERTAC

interconnect solutions used in areas where integrity and reliability is essential to well-being of patient. Products facilitate medical trends toward less invasive procedures, disposable components, embedded electronics, high cycle life + sterilization

Germany

IHK OSTBRANDENBURG

The Chamber of Commerce East Brandenburg (IHK Brandenburg) of the Brandenburg region. Operating worldwide, our quality principles are influenced by market and customer orientation.

Germany

ILM - INSTITUT FÜR LASERTECHNOLOGIEN IN DER MEDIZIN AN DER UNIVERSITÄT ULM

With its unique interdisciplinary competence spectrum, the ILM supports the development of new methods and devices for medicine and metrology. Scientifically, technically elegant and market-oriented.

Germany

In Partnership with:

MEDICAL DEVICES
Meetings

In Association with:

Final List of Participants - 24/08/2016

IMT INFORMATION MANAGEMENT TECHNOLOGY AG

safety sensitive medical devices, complex IT projects, in the development of sophisticated embedded systems and industrial automation.

Switzerland

INNOKAS MEDICAL

Contract design and manufacturing of electro-mechanical medical and In Vitro diagnostic equipment

Finland

INNOVATIVE POLYMER COMPOUNDS LIMITED (IPC)

Compounding of polymer materials and additives to ISO 13485 standard to global medical device sector only, including material development and R&D support.

Ireland

INSTITUT FÜR TEXTIL- UND VERFAHRENSTECHNIK DENKENDORF (ITV)

ITV Denkendorf conducts fundamental and application-oriented research across and beyond the entire textile production chain. Their focus is on the development of technical textiles for the areas of health and medicine, mobility, environment, and ICT.

Germany

INSTITUTE FOR TECHNOLOGY ASSESSMENT & SYSTEMS ANALYSIS(ITAS)-KARLSRUHE INSTITUTE OF TECHNOLOGY(KIT)

Research Institute with the focus of technology assessment in health

Germany

JENOPTIK POLYMER SYSTEMS GMBH

Diode and solid-state lasers for the areas of ophthalmology, dermatology and surgery, optical and optoelectronic systems and components for digital imaging, microscope cameras.

Germany

KUKA ROBOTER GMBH

KUKA is a leading provider of advanced robotics for the key players of medical device manufactures.

Germany

MEDICAL MOUNTAINS AG

The Medical Mountains Cluster Management creates the framework to accelerate innovation, encourage cooperation and support in the development of foreign markets.

Germany

INITIAL SAS

Initial is your design and production center, using a wide range of 3D printing technologies such as Polyjet, SLA, SLS, FDM, vacuum casting, but also tooling and injection moulding.

France

INNOVATIONSALLIANZ BADEN-WÜRTTEMBERG (INNBW)

We are a strong alliance of 12 independent research institutions which undertake results-oriented basic research in the important fields of the future, such as health and care that are made available for businesses.

Germany

INOVA DE GMBH

We specialize in medical product development (Software and Hardware), from idea to final product on a variety of medical fields.

Germany

INSTITUTE FOR SYSTEM DYNAMICS - UNIVERSITY STUTTART

Germany

ITB PRECISIETECHNIEK BV

Production plastic and metal high precision parts, tools are made in own toolshop Production facility with cleanroom

The Netherlands

KOTRA (KOREA TRADE-INVESTMENT PROMOTION AGENCY)

International delegation of companies from South Korea

Switzerland

LUMENTUM AG

is a market-leading manufacturer of advanced optical and photonic products enabling customers to differentiate their products on various industrial markets worldwide.

Switzerland

MERGON HEALTHCARE

Mergon Healthcare specializes in precision blow molding, injection molding, additive manufacturing and assembly of technical components for the medical device and pharmaceutical industry.

Ireland

In Partnership with:

MEDICAL DEVICES
Meetings

In Association with:

Final List of Participants - 24/08/2016

MICRO SYSTEMS TECHNOLOGIES MANAGEMENT AG

offer innovative solutions from concept to series production in the field of medical microelectronics including development & design, system integration and manufacturing, batteries, battery packs and hermetic feedthroughs for active implants

Switzerland

MOLIPOREX SA / VANGEST GRUPO

Tooling & Parts Production

Portugal

NBSO - NETHERLANDS BUSINESS SUPPORT OFFICE

A worldwide network of Netherlands Business Support Offices (NBSO) provides Dutch entrepreneurs with services and support for doing international business.

Germany

OSYPKA GMBH MEDIZINTECHNIK

Manufacturing, sales and distribution of medical devices

Germany

PHILIPS HEALTHCARE

Royal Philips is a diversified technology company, focused on improving people's lives through meaningful innovation. Our health care business makes up 42% of our global sales revenue.

The Netherlands

PORTESCAP SA

Development and manufacturing of miniature motor technologies (Brush DC, Brushless, Steppers) to solve the motion needs of a spectrum of end markets, from medical devices to various industrial applications.

Switzerland

RENA TECHNOLOGIES GMBH

Manufacturer of production equipment;

Germany

RIBERMOLD, LDA

Mold manufacturing for the thermoplastics and rubber for one and more components and die casting for aluminum and Zamac.

Portugal

RUBIS PRECIS GROUP

High-precision machining of hard materials and metals. Micromontage

France

MOLDES RP INDUSTRIA DE MOLDES SU, LDA

Mould maker. Moulds high precision.

Portugal

MURRPLASTIK MEDIZINTECHNIK GMBH

Tool construction for injection molds; injection mold; cleanroom production; product development

Germany

NMI - NATURWISSENSCHAFTLICHES UND MEDIZINISCHES INSTITUT

The Natural and Medical Sciences Institute (NMI) at the University of Tübingen undertakes applied research at the interface of biotechnology and materials science.

Germany

PANASONIC ELECTRIC WORKS EUROPE AG

Panasonic System Communications Company Europe (PSCEU) provides a wide range of cutting edge business products and solutions.

Germany

PHILIPS HEALTHCARE

Royal Philips is a diversified technology company, focused on improving people's lives through meaningful innovation. Our health care business makes up 42% of our global sales revenue.

The Netherlands

PROJECT SOLUTIONS GMBH

Germany

RGM SPA

RGM designs and manufactures Custom Power Supplies & Conversion Systems for different applications on the medical industry , such as: dialysis equipment, ultrasound scanners, critical care, diagnostics systems and portable systems.

Italy

ROHDE & SCHWARZ GMBH & CO KG WERK TEISNACH

Wir stellen uns persönlich Ihren Anforderungen als Dienstleister für Ihre Fertigung. Von Automotive über die Luft- und Raumfahrttechnik bis zur Medizintechnik entstehen elektromechanische Baugruppen, Systeme und Sonderanfertigungen jeder Art.

Germany

In Partnership with:

MEDICAL DEVICES Meetings

In Association with:

Final List of Participants - 24/08/2016

SANMINA EMS HAUKIPUDAS

The comprehensive resources available with Sanmina's Medical division provide worldwide network of 21 ISO-certified manufacturing facilities includes nine FDA-registered factories.

Finland

STATICE

Contract R&D and contract manufacturing. Holding and assembly of silicone parts and catheters.

France

SWISS BUSINESS HUB GERMANY

Export promotion for Swiss SMEs, Consulting, Business Development. Investment Promotion for Switzerland as a Business Location.

Germany

TATSUTA ELECTRIC WIRE & CABLE COMPANY LTD

Mainly engaged in the manufacture and sale of electric wires, cables and related products.

Japan

TORAY INTERNATIONAL EUROPE GMBH

European trading arm of the Toray Group, active in chemicals and graphics, plastics, films, textiles and fibers, electronics and carbon.

Germany

UEPRO, LDA

UEpro is a supplier for injection (plastic, aluminium and zamak), compression and blow moulds.

Portugal

VI2PARTS

Additive Manufacturing Services (DLP and FDM-Technologies) for polymer parts, 3D Printing, Consulting for additive manufacturing technologies

Germany

VISTAMED LTD

VistaMed is a leading provider of complex extrusions, finished catheters and devices to the minimally invasive medical device industry.

Ireland

Z-WERKZEUGBAU GMBH

Components, parts, modules, original equipment manufacturers

Austria

SMC PNEUMATIK GMBH

Worldwide leader expert in pneumatics, SMC serve the Life Science sector as a component supplier, technology developer, technology integrator and as an effective extension of our customers engineering departments.

Germany

STERIPACK GROUP

Providers of Clean room manufacturing, Sterile Packaging, Contract Manufacturing, ISO 17025 Accredited Testing, Pharmaceutical Packaging, Cosmetics and Oral Care for the world's Medical Device, Pharmaceutical and Healthcare Companies.

Ireland

TAISEI KOGYO CO., LTD

Components, parts, modules, original equipment manufacturers

Japan

TOPIC EMBEDDED SYSTEMS

Development of medical systems as a contractor. Electronics and Embedded Software forms a main part of our systems development.

The Netherlands

TRELLEBORG SEALING SOLUTIONS GERMANY GMBH

We manufacture a complete line of medical and food grade silicone products like silicone tubing, silicone hose for life sciences and processing industries.

Germany

UNIVERSITY OF ZAGREB - RONNA - FACULTY OF MECHANICAL ENGINEERING AND NAVAL ARCHITECTURE

Department of Robotics and Production System Automation

Croatia

VISCOFAN BIOENGINEERING

Manufacture and sale of Collagen-based products for biomedical applications.

Germany

ZÜHLKE ENGINEERING GMBH

System and SW Engineering

Germany
