

Laboratory Technician

f/m/d

WORKING TIME:

Full-time

WHERE:

Dresden, Germany

BEGIN:

as soon
as possible

If you were part of a team developing the technology to support health and prevent diseases instead of treating them, would you be proud to be part of it?

Lipotype is a growing biotech company, and up to this challenge. A few years ago, we developed Lipotype Shotgun Lipidomics, a leading technology that allows for the analysis of thousands of different lipids (fat molecules) at once. Today, we are the leading lipidomics provider and deliver our lipid analysis services for pharma/biotech companies, cosmetics/dermatology industry, as well as for academic researchers.

Who are we looking for?

- You are a highly organized person, accustomed to routine analytical tasks requiring high reproducibility, precision and cleanliness.
- You are trained as biological technical assistant/medical technical assistant (biologischstechn. / medizinisch-techn. Assistentin – BTA / MTA) or within an equivalent training program in biology, biotechnology or medicine.
- You are fluent in English.
- Hands-on experience in automated liquid handling and high-throughput processes, as well as a practical knowledge of Quality Management is an asset.

What will you do?

- You will be responsible for sample processing for lipid analysis with mass spectrometers.
- Manual or automated sample preparation.
- Organization of sample sets.
- Lipid extraction using a robotic liquid handling station.
- Performing laboratory maintenance and associated laboratory routines.

Why should you join us?

- Dynamic start-up atmosphere to learn, grow and thrive.
- International team with down-to-earth colleagues & flat hierarchies.
- Flexible working hours.
- Ping pong tournaments and legendary company events!
