The 3rd International Partnering of the Israeli BioMedTech Industry Life Sciences Israel™ 2015

18-19 February, 2015 | Dan Panorama Hotel, Tel Aviv, Israel

Simply Partnering

Life Sciences Israel™ Partnering – Testimonials

I would like to thank you for the opportunity to attend the "Life Sciences Israel".

I was impressed by the well organized and productive conference, these together with the extremely efficient and easy to use "Partnering Software" puts this event as the leading event for Life Science partnering in Israel.

Yaron Cherny | Business Development Manager, Pharma | Teva Israel

The Life Science Israel Conference 2013 was a big success for us.

The partner program allowed us to meet many different types of companies and provide us with many potential new funding / partnering opportunities. Thank you for a great conference and we look forward to participating again next year. **Stephen Marx Ph.D., | C.E.O | Marx Biotechnology Ltd.**

I wanted to thank you for your kind invitation to your wonderful event. I was happy to have met quite a few interesting companies and got further connected to the Israeli life science industry.

Darren Ji | Global Head, Asia and Emerging Markets Partnering, F. Hoffmann-La Roche

I was very pleased to attend the *Life Sciences Israel 2013* partnering conference.

It provided valuable opportunities for networking & for potential collaborations. The program was well organized, the presentations were interesting & the meetings were very productive

Amanda Shauli | Business Development Manager, Dexcel Pharma.

I'd like to thank you for inviting me to the "Life Sciences Israel" in Oct 2013, which was very impressive, well organized and highly efficient. I was very happy with the easy to use "Partnering Software" and very satisfied with the one on one meeting.

This event is a very good opportunity to meet Israeli companies, in addition to some other European life science companies in various R&D stages. I enjoyed very much with the conference and your lovely country – Israel

Ivan Zhai | 翟宇MD MBA | CEO 总裁 GCP CMIC ClinPlus Co., Ltd.

I enjoyed participating in my first Life Science Israel Partnering Conference, which included lively panel discussions and effective one on one partnering meetings regarding new technology opportunities.

The meeting was well organized and I was able to make good contacts in a more intimate and focused conference setting.

Albert A. Lauritano MS, CLP | Director, Technology Licensing & Collaboration | BD Technologies

I would like to thank you for the opportunity to attend the "Life Sciences Israel 2013 Partnering Conference" as In this conference I made my first substantial step from the Academia into the Life Sciences Israel Industry.

As a Postdoctoral fellow from the Hebrew University, I had the privilege to learn from the experience of many biomed companies.

Importantly, the environment of the conference encouraged me to meet with professionals from various pharmaceutical companies which led to potential collaborations of academic research and pharmaceutical firms.

I am looking forward to the next Life Sciences Israel Partnering Conference in 2015.

Yaron Suissa | PhD, MBA | Hebrew University – Hadassah Medical School
